

" Greatest Super Food on Earth "

For the United World Health Food Conference to declare Spirulina as the " Greatest Super Food on Earth " is not surprising especially considering that 1kilogram of Spirulina contains as much nutrients as 1000 kilograms of assorted vegetables.

Since that declaration made in 1974, scientists have found extensive uses of Spirulina. Today it is accepted as a health food in 140 countries including U.S.A., Japan and all over Europe.

Nutramax Spirulina is blue green, filamentous microalgae with amazing ability to synthesise high quality blend of phytonutrients that no other single plant source can match. Spirulina natural in its formation, is highly digestible owing to its unicellular form.

Worldwide, Athletes, Sportsmen and Trekkers use Spirulina which provides instant energy synthesis and all the nutrition of a balanced meal without adding calories, carbohydrates and fats to the body.

Explore the healthy world of Nutramax Spirulina for you and your family

The Power house of Protein.

Nutramax Spirulina has 65 - 71% protein content with all the 8 essential amino acids making it a complete protein source. It is the most powerful combination of nutrients ever known in any grain, herb or food.

World's Healthiest Food rich in natural anti-oxidants.

Nutramax Spirulina provides a wide range of anti-oxidants like : Beta carotene [pro vitamin A], Vitamin E, Zinc and Selenium. Anti-oxidants reverses the ill effects of pollution, stress, contamination and pre-mature ageing.

High in Vitamin B12 and B-complex.

Nutramax Spirulina, the only vegetative source of Vitamin B12, helps boost energy levels and reduces stress & emotional fatigue. Spirulina also supplements significant quantities of all the B-complex Vitamins.

Added value - rich in minerals.

Nutramax Spirulina is the best source of natural iron; a gram of Spirulina meets 30 - 40% of your daily iron requirements. The full complement of minerals like Magnesium, Calcium, Potassium, Phosphorous and trace elements helps build a strong system.

The rare essential Gamma Linolenic Acid (GLA) is a key to good health.

Nutramax Spirulina, a whole food source of GLA [like mothers' milk] helps reduce bad cholesterol, prevents heart diseases, arthritis and diabetes.
